Coverage on a dependent child terminates on the earlier of the child's 25th birthday, the policy anniversary nearest the insured's 65th birthday, the insured's death, or upon conversion of the child's coverage.

⁴ There are circumstances in which replacing your client's existing life insurance or annuity can benefit your client. You should make a careful comparison of the costs and benefits, including any applicable surrender charges, of your client's existing policy and the proposed policy to analyze how a replacement may affect your client's plan of insurance. You should provide this information to your client and discuss whether replacement is in your client's best interest.

⁵ Riders will likely incur additional charges and are subject to availability, restrictions, and limitations. When considering a rider, request a policy quote from your life insurance producer to see the rider's impact on your policy's values. Please contact your life insurance producer for all conditions and restrictions. Accelerated Death Benefit Rider (form # R16LYTIR or ICC16 R16LYTIR), Waiver of Premium Rider (form #R16LYPW or ICC16 R16LYPW), and Children's Level Term Insurance Rider (form #R18LYCT or ICC18 R18LYCT). Rider form #s based on rider and state of policy issue. Benefit payments reduce the policy's death benefit and other values under the policy. If the entire death benefit is accelerated, the policy will terminate. Regardless of the monthly election chosen, benefit payments may not exceed 100% of the IRS per diem. Benefits paid by accelerating the policy's death benefit are intended to qualify as death benefits under section 101(g) of the Internal Revenue Code and may be excludable from your income and may not be subject to federal taxation. However, federal, state, and/or local tax rules relating to the payment of accelerated death benefits are complex, will depend on your specific facts and circumstances, and benefits may or may not be taxable. In addition, these payments may affect eligibility for other benefits provided by federal, state, or local government including public assistance programs such as Medicaid. When benefits are received from multiple policies providing long-term care or chronic illness benefits for a given insured, including policies with different owners, all of those benefits must be aggregated to determine their taxability. Consequently, advice and guidance should be obtained from a personal tax advisor for more information. Pacific Life cannot determine whether the benefits are taxable.
